

THE **TRIO** PROFESSIONAL

A 'BEEFED-UP' NON FOLDING
VERSION OF THE FAMOUS
TRIO TRANSPORTABLE

Designed and developed for the Rental Market or the 'HIGH MILEAGE' Golfer (36 Hole Battery Capacity)

GET AROUND FOR YEARS TO COME!

MAJOR SUPPLIERS TO THE HANDIGOLF FOUNDATION
A CHARITABLE TRUST FOR THE HANDICAPPED GOLFER

Bringing style to the course

Based on the proven format of the original Trio, the 'Professional' is an upgraded model designed for the heavy use, particularly suited to the rental market.

With a wider, reinforced chassis, more powerful motors and driven by heavy duty batteries, the professional is easily capable of two rounds of golf, of even the toughest course, between each battery charge.

The six and a half inch wide tyres are kind to the course, while the sprung seat with arm rests and silent electric drive

provide superb comfort for the rider.

The design of the upgraded chassis employed on the Trio Professional, does not permit the cart to be dismantled for transportation (unlike the standard model)

However a purpose built trailer is available if required.

Other optional extras include a double golf bag carrier and a sweater basket, available on request.

If you need a little assistance call Patterson Products
